

ODISHA AUTHORITY FOR ADVANCE RULING
GOODS AND SERVICE TAX (GST)
RAJASWAVIHAR, BHUBANESWAR-751007(ODISHA)
PROCEEDINGS OF THE AUTHORITY FOR ADVANCE RULING
U/S.98 OF THE GOODS AND SERVICE TAX ACT, 2017

Members Present :

1. Sri Gopal Krishna Pati, IRS, Additional Commissioner, Office of the Chief Commissioner, GST, Central Excise & Customs, Bhubaneswar
2. Sri Dillip Satpathy, Special Commissioner of CT&GST Office of the Commissioner, CT&GST, Odisha Baniyakar Bhawan, Cantonment Road,Cuttack-753001-Odisha.

1	Name and Address of the Applicant	M/s Surya Roshni LED Lighting Projects Limited, plot no.111/762, Mouza-Rudrapur, P.O.-Pahal, Opp. Highway Honda Showroom, NH-5, Bhubaneswar-752101.
2	GSTIN or User ID	21ABBCS4607C1Z0
3	Date of Filing of Form GST ARA-01	20.03.2020
4	Present for the Applicant in the E-hearing/Virtual hearing	R K Kothari
5	Date of Personal Hearing	04.12.2020

ORDER NO.05/ODISHA-AAR/2020-21/DATED 20/01/2021

Subject: M/s Surya Roshni LED Lighting Projects Limited, Plot No.111/762, Mouza-Rudrapur, P.O.-Pahal, Opp. Highway Honda Showroom, NH-5, Bhubaneswar-752101 (herein after referred to as the ‘Applicant’) having a GSTIN : 21ABBCS4607C1Z0, is a company filed an application for Advance Ruling under Section 97 of CGST Act, 2017 and Section 97 of the OGST Act, 2017 in FORM GST ARA-01 discharging the fee of Rs. 5,000/- each under the CGST Act and the SGST Act.

- 1.0 The Applicant having assigned with GSTIN number 21ABBCS4607C1Z0 sought for an advance ruling in respect of the following questions.

Q1. Whether Capital Subsidy (90 per cent of Project Capital Expenditure) received by the Applicant as per SIOM Agreement and Escrow Agreement from Odisha Government / ULBs for the Green Field Public Street Lighting System in the State of Odisha is not liable to GST and if liable to GST, then at what rate of GST?

Q2. What shall be the GST rate for the balance 10% of the Project Capital Expenditure and O&M Fees received as Annuity Fee over the period of 7 years by the Applicant as per SIOM Agreement considering the Sl. No. 3(vi) of the notification No. 11/2017 Central Tax (Rate), dt. 28-06-2017 as amended by Notification No. 31/2017 Central Tax (Rate), dt. 13-10-2017 and corresponding notifications of Odisha State Tax Rate as amended.

Q3. What shall be the time for raising GST Invoices for Capital Subsidy and Annuity Fee (consisting of 10% of Project Capital Expenditure and O&M Fee) payable in 7 years?

Q4. Whether the rate of tax on the supplies by the sub-contractor to the Applicant shall be 12 % GST (6% CGST and 6 % SGST) in terms of serial no. 3 (ix) of Notification No.11/2017-Central Tax(Rate) dated 28.6.2017 as amended by Notification No.1/2018-Central Tax (Rate) dated 25.01.2018/ Odisha State Tax (Rate) dated 28.06.2017 as amended .

1.1 At the outset, we would like to make it clear that the provisions of both the CGST Act and the OGST Act are the same except for certain provisions. Therefore, unless a mention is specifically made to such dissimilar provisions, a reference to the CGST Act would also mean a reference to the same provision under the OGST Act.

2.0 Submission of the Applicant

2.1 It was submitted that the applicant is engaged in the business of executing Greenfield street lighting project. The Government of Odisha, through the Housing and Urban Development Department, the Urban Infrastructure Development Fund and the Directorate of Municipal Administration has decided to develop an energy efficient street lighting system covering new and upcoming road stretches in Greenfield areas across 21 Urban Local Bodies (ULBs), including in the cities of Balasore, Bhadrak, Jajpur, Baripada on a Public Private Partnership basis.

- 2.2 For this purpose, the Odisha Urban Infrastructure Development Fund issued a Request for proposal based on an open bidding process. The Applicant has made a successful bid for the said tender and has consequently entered into an agreement on 29.12.2018 for design, supply, installation, operation, maintenance and transfer of the energy efficient Greenfield Public Street Lighting System and the Centralized Control & Monitoring System with the Government of Odisha represented by the Directorate of Municipal Administration (“the Authority”) and the ULBs. The Agreement provides that the initial term of the Agreement shall be 7 years. Under the Agreement, the Applicant undertakes to supply and install equipment such as LED Luminaire, feeder panels, poles, outreach arms, cables/wires with holding arrangement for overhead supply cables, in respect of both, the Greenfield Public Street Lighting System as well as the Centralized Control & Monitoring System.
- 2.3 It was submitted that for such installation, the Applicant is entitled to receive a consideration, in the form of Capital Subsidy, being 90% of the total capital expenditure incurred by the Applicant in supplying, installing and commissioning of the equipment. The balance 10% of the total capital expenditure along-with O&M fees is receivable as ‘Annuity fees’, and is recovered by the Applicant by raising quarterly invoices on the ULBs. After the Greenfield Public Street Lighting System has been commissioned, the Applicant is required to undertake the Operation and Maintenance of the system till the end of the term of the Agreement.
- 2.4 The Applicant submitted that 90 per cent of Project Capital Expenditure received as capital subsidy is not “consideration” as defined in Section 2(31) of the CGST Act. Under Paragraph 13.1(a) (i) of the Agreement, both the Authority and the ULBs have jointly agreed to provide the Applicant with the consideration, being 90% of the total capital expenditure incurred for the project. As per Para 1.3 of Escrow Agreement, the ultimate responsibility for depositing the Capital Subsidy in Escrow Account shall be with the Authority (Odisha Government). Hence Odisha Government is responsible for depositing Capital Subsidy equal to 90 per cent of amount received by the Applicant.
- 2.5 The Applicant submitted that they are not liable to pay GST on capital subsidy (90 % of the total capital expenditure) amount received in terms of SIOM Agreement and

Escrow Agreement as per the discussion held with the authority which awarded the work.

- 2.6 It was also submitted that the applicant has fulfilled all the conditions of works contract service (WCS). Therefore, the supply made by the applicant qualifies as a supply of works contract services. Further, it was submitted that the Greenfield Street Lighting System along with the Centralized Control & Monitoring System is an immovable property. In the present case, the streetlight poles, with the overreach arms, LED Luminaires, feeder panels, etc. attached thereto, are erected along the roadways by burying the same up to 1.8 meters underground depth. The street light poles have to be attached to the earth in such a manner that they should be capable of withstanding wind speeds of 150 km/h. Further, each pole is connected (underground) to an earthing electrode attached to every fifth pole. It is submitted that the said poles cannot be dismantled and reassembled without substantial damage to the entire paraphernalia. Thus, the Greenfield Street Lighting System qualifies as an immovable property.
- 2.7 The applicant has submitted that the entire contract shall be treated as a contract for the composite supply of works contract involving a supply of goods and services. In support of its claim, the applicant cited the decision of (i) Super Wealth Financial Enterprises (P) Ltd. reported in 2019 (20) GSTL 505 (AAR-GST)
- 2.8 Further, it was submitted that the activity that will be undertaken by the Applicant will fulfill all the following conditions and therefore, the supply would fall under Entry 3(vi) of the Notification No. 11/2017-CT(Rate) dated 28 June 2017 (as amended).
- (i) There must be a supply of works contract as defined under Section 2(119) of the Act;
 - (ii) The said supply must be made to the Central Government, State Government, local authority or Government Authority;
 - (iii) The said supply must be by way of erection, commissioning, installation, completion, fitting out, or maintenance;

D

Jai

- (iv) The aforesaid activities must be carried out in respect of a civil structure or any other original works meant predominantly for use other than for commerce, industry, or any other business or profession.
- 2.9 As regards determination of time of supply under GST, it has been submitted that as per Section 9(1) of the Act, GST is leviable on the value of supply as determined by Section 15 of the Act. Time of supply of Services as per Section 13 is the earlier of the following dates, namely the date of issue of invoice by the supplier, if the invoices are issued within the period prescribed under sub-section (1) of section 31, or the date of receiving of payment whichever is earlier. The applicant submitted that the timing for raising of GST Invoice of Annuity fee shall be at the time of sending Bill for claiming the payment to the Authority/ ULB.
- 2.10 The applicant submitted that its supply is a Composite Supply of Works Contract as defined in sub section (119) of section 2 of the Central Goods and Services Tax Act, 2017, which is provided to a Local Authority, by way of Construction, erection, commissioning, installation, completion, fitting out, repair, maintenance, renovation, or alteration of a Civil structure or any other original works meant predominantly for use other than for commerce, industry or any other business or profession and therefore liable to tax rate of 12% under Entry 3(vi) (a) of notification no. 11/2017 – Central Tax (Rate) dated 28-06-2017 as amended.
- 2.11 The Applicant submitted that the rate of tax on the supplies by the sub-contractor to the Applicant shall be 12 % GST (6% CGST and 6 % SGST) in terms of serial no. 3 (ix) of Notification No.11/2017-Central Tax(Rate) dated 28.6.2017 as amended by Notification No.1/2018-Central Tax (Rate) dated 25.01.2018/ Odisha State Tax (Rate) dated 28.06.2017 as amended .
- 3.0 The personal hearing was fixed on 04.12.2020 under due intimation to the applicant, the jurisdictional officer of State GST & jurisdictional officer of Central GST (intimated through their respective commissionerate along with a copy of application and the written submission of the applicant). The applicant appeared E-hearing/Virtual hearing through its Representatives. During P.H., Sri R Kothari on behalf of the applicant re-iterated the submissions already furnished in the annexure to the application. However, he has also submitted a written submission wherein it

was submitted that the works to be carried out in terms of the SIOM agreement satisfy the definition of 'Works Contract'. He has also submitted that the applicant is not only supplying the materials but executing a contract in the nature of 'Works Contract'. Sri Kothari in his submission cited the decision of Odisha AAR in the case of M/s Super Wealth Financial Enterprises (P) Ltd vide Order No.04/ODISHA-AAR/2018-19 dated 31.10.2018 wherein the Authority has considered the similar work of supply, installation & Maintenance of LED Street Lighting systems are essentially in the nature of "Works Contract".

Discussion & findings

- 4.0 We find that the questions before us essentially pertain to classification of supply of goods/services and the rate of GST applicable on supply of such goods/service, particularly the applicability of concessional rate of tax in terms of Notification No. 11/2017-Central Tax (Rate), dated 28-6-2017. We, therefore observe that the issue before us is squarely covered under Section 97(2) of the CGST Act, 2017 and therefore we admit the application for consideration.
- 4.1 It has been argued by the applicant, through the written submission and also at the time of personal hearing, that the impugned supply is a supply of 'works contract service' which is being supplied to Government of Odisha represented by the 'Directorate of Municipal Administration' and the 'Urban Local Bodies'. It has also been argued that Capital Subsidy (90% of Project Capital Expenditure) received as per SIOM Agreement and Escrow Agreement from Odisha Government/ULBs for executing the Green Field Public Street Lighting System is not liable to GST. Further, the applicant submitted that 10% of the Project Capital Expenditure would merit entitlement for concessional rate of GST @ 12% [CGST @ 6% + SGST @ 6%] in terms of Serial Number 3(vi) of Notification No. 11/2017-Central Tax (Rate), dated 28-6-2017 (as amended).
- 4.2 We find that the questions before us to answer are (a) Whether Capital Subsidy (90% of Project Capital Expenditure) received by the Applicant for execution of the Green Field Public Street Lighting System is liable to GST or not, if liable to GST, then at what rate of GST? (b) What shall be the applicable rate of GST for the balance 10% of the Project Capital Expenditure and O&M Fees received as Annuity Fee (c) What

shall be the time for raising GST Invoices for Capital Subsidy and Annuity Fee and (d) what would be the the rate of GST on the supplies by the sub-contractor to the Applicant in the instant case.

- 4.3 Before proceeding to answer the aforesaid questions, it is essential for us to examine whether in the present case, the supply being undertaken or proposed to be undertaken by the applicant would qualify to be a supply of 'composite supply' or 'works contract'. Therefore, we need to discuss all the provisions relating to 'composite supply' and 'works contract' under GST Act.
- 4.4 On perusal of the SIOM agreement (supply, installation, operation and maintenance) & Equipment Price Schedule for Cluster C, we see that the contract value for cluster C (urban Local Bodies in Balasore, Bhadrak, Jajpur, Baripada) is Rs. 42.35cr and the contract pricing is different for Equipment of Materials and O&M Fee (operation and maintenance fee). Out of Rs.42.35 cr, the price of Equipments is Rs.38.23 Cr and the price for O&M Fee is Rs.4.12Cr only. Thus the contract price has clearly bifurcated the contract into a supply of goods and supply of services. Further clause No. 13 of the agreement deals with TERMS OF PAYMENTS. The said clause of the agreement envisages that separate payment for capital subsidy & O&M Fee. There appears to be a clear bifurcation in the agreement with respect to price of Equipments and O&M Fees.
- 4.5 Thus we find from the agreement that the contract is considering a clear demarcation of goods and services to be provided by the applicant but the supplies are naturally bundled and in conjunction with each other. Hence we now refer to the definition of 'composite supply' as mentioned in sub-section (30) of Section 2 of CGST Act, 2017 and which is as under :-
- 'Composite supply means a supply made by a taxable person to a recipient consisting of two or more taxable supplies of goods or services or both, or any combination thereof which are naturally bundled and supplied in conjunction with each other in the ordinary course of business, one of which is a principal supply.'
- 4.6 From the discussions made above, we find that in the agreement submitted by the applicant, the major part of the contract is supply of goods. The price of these goods supplied to the client by the applicant constitutes 90.23% of total contract price.

Further we find that the goods that are supplied are used by the applicant to provide services like installation, commissioning and maintenance etc. Without these goods the services cannot be supplied by the applicant and therefore we find that the goods and services are supplied as a combination and in conjunction and in the course of their business where the principal supply is supply of goods. Therefore, the instant supply squarely falls under the definition of “composite supply” where the principal supply is ‘supply of goods’. Thus we find that there is a composite supply in the subject case since in the subject case there is no building, construction, fabrication, completion, erection etc of any immovable property wherein transfer of property in goods (whether as goods or in some other form) is involved in the execution of the contract.

4.7 Besides, as per para 1(c) of Schedule II of the CGST/OGST Act, any transfer of title in goods under an agreement which stipulates that property in goods shall pass at a future date upon payment of full consideration as agreed, is a supply of goods and not a service.

4.8 The next issue to be considered and examined is whether the supply of the applicant falls under the supply of ‘works contract service’. As per Section 2(119) of the CGST Act, 2017, unless the context otherwise requires, *the term “works contract” means a contract for building, construction, fabrication, completion, erection, installation, fitting out, improvement, modification, repair, maintenance, renovation, alteration or commissioning of any immovable property wherein transfer of property in goods (whether as goods or in some other form) is involved in the execution of such contract.*

The following two points emerge from the abovementioned definition of ‘works contract’.

- (i) The agreement/contract and the relevant supply must be for building , construction, fabrication, completion, erection, installation, fitting out, improvement, modification, repair, maintenance, renovation, alteration or commissioning of any immovable property .
- (ii) The supply must involve transfer of property in goods in execution of the said contract.

4.9 In order to examine the fulfillment of these requirements, it is imperative to examine the contract/agreement under which the supplies are made. The applicant has submitted that they are under an obligation to supply and install equipment such as LED Luminaire, feeder panels, poles, outreach arms, cables/wires with holding arrangement for overhead supply cables, in respect of both, the Greenfield Public Street Lighting System as well as the Centralized Control & Monitoring System. It was also submitted that the applicant shall be responsible for the supply, installation and commissioning of the following.

- (i) Street light poles of 8 to 9 meters in height (above ground) along with outreach arms, LED Luminaires, feeder panels and overhead cables. The poles will be buried up to 1.8 meters underground depth and base plates will be welded to the bottom of the poles. All the poles shall be connected with earthing electrodes installed at every fifth pole. The poles shall be designed and installed in such a manner as to withstand wind speeds of 150 km/hr.
- (ii) Central Control and Monitoring System & automation system comprised of wireless central automation controller, server cluster, control centre, enterprise middleware system, enterprise management information system and call centre. The entire street lighting system should be capable of being controlled from the Central Control and Monitoring System.

4.10 The applicant further submitted that the street light poles and feeder panels are attached to the earth permanently and the LED Luminaires, outreach arms, etc. are also permanently fastened to the street light poles for their use. Thus, the Greenfield Street Lighting System qualifies as an immovable property. It was also stated that at the end of the term of the Agreement (7 years), the Applicant is under the obligation to transfer all the rights, interests and property in the equipment installed by it, including any goods used in providing the operation and maintenance services. Further, after the Greenfield Public Street Lighting System has been commissioned, the Applicant is then required to undertake the Operation and Maintenance of the system till the end of the term of the Agreement. The applicant has also explained what a Greenfield Public Street Lighting System & central control, monitoring system and automation system is, in their case and also the processes involved in the

28.	Narr'
29.	Gr
30.	'
31.	
32.	

subject case. The applicant has tried to establish that the supply made by them qualifies as a supply of 'works contract service'.

4.11 The salient features of the agreement indicate that the obligation on the applicant is in relation to the effective installation and functioning of the goods supplied by them and thereafter, they would undertake the activities of 'operation and maintenance' of the same. The contract governing their supplies does not relate to building, construction, and fabrication etc. of any immovable properties, as envisaged in the definition of 'works contract'. Their supplies are in the nature of movable property i.e. supply of goods which involves ancillary services such as installation, commissioning etc. All these services which are supplied to the clients are nothing but ancillary activities with the main activities of supply of goods. The primary activity of the applicant is therefore, 'supply of goods' and not 'supply of services'. Further, the activity performed by the applicant is not related to the immovable property at any point of the time and hence the said activity does not qualify to be a 'works contract'. The applicant in support of their contention has cited some rulings pronounced by different Advance Ruling Authorities which are not applicable to the present case inasmuch as the facts and circumstances of those cases are distinguishable from the applicant's case.

4.12 Now, coming to the question raised by the applicant, which is "Whether Capital Subsidy (90 per cent of Project Capital Expenditure) received by the Applicant as per SIOM Agreement and Escrow Agreement from Odisha Government / ULBs for the Green Field Public Street Lighting System in the State of Odisha is not liable to GST and if liable to GST, then at what rate of GST? It was submitted that the Applicant is to receive from the Authority and the ULBs a consideration, in the form of Capital Subsidy, being 90% of the total capital expenditure incurred by the applicant in supplying, installing and commissioning of the equipment. In support of its claim, the applicant relied upon provisions of Section 15 of the CGST Act, 2017, contended that the amount of subsidy received/receivable from the central government and state government shall not be included in the value of supply of the supplier who receives the subsidy. In their case, the 'Authority' from whom the subsidy received/receivable is a State Government (Govt. of Odisha). Further, it was

 

also submitted that 'capital subsidy' is not a 'consideration' as defined in Section 2(31) of the CGST Act and therefore, the applicant is not liable to pay GST on the 'capital subsidy'.

4.13 In view of Section 15(2)(e) of the CGST Act, the 'value of supply' shall include subsidies directly linked to the price excluding subsidies provided by the Central Government and State Governments. On perusal of the agreement/contract, we see that the capital subsidy received/ receivable by the applicant in the instant case is the actual cost incurred by the project SPV (the applicant in the instant case) in the project as approved by the Authority & ULBs. It is not a subsidy which generally means grant/grant-in-aid or a benefit given to an individual, business or institution, usually by the government. It is also not a subsidy which typically given to remove some type of burden and to promote a social good or an economic policy for overall interest of the public. The so called 'capital subsidy' cannot be a 'subsidy' by any stretch of the imagination, rather the same is a consideration as defined in Section 2(31) of the CGST Act in relation to the supply of goods and therefore, the said 'capital subsidy' shall certainly be liable to be included in the Transaction Value for the purpose of calculation of GST. We are of the considered view that the applicant is liable to pay GST on 'Capital Subsidy' (90% of the total capital expenditure).

4.14 The next question to be answered is 'what shall be the GST rate for the balance 10% of the Project Capital Expenditure and O&M Fees received as Annuity Fee over the period of 7 years by the Applicant as per SIOM Agreement considering the Sl. No. 3(vi) of the notification No. 11/2017 Central Tax (Rate), dt. 28-06-2017 as amended by Notification No. 31/2017 Central Tax (Rate), dt. 13-10-2017 and corresponding notifications of Odisha State Tax Rate as amended'. The applicant submitted that the works to be carried out in terms of the SIOM Agreement satisfy the definition of "works contract" under Section 2(119) of the Central Goods and Services Tax Act, 2017 & cover under Serial No. 3(vi) (a) of the Notification No. 11/2017 – Central Tax (Rate) dated 28-06-2017 amended with Notification No. 24/2017 – Central tax (Rate), dt. 21-09-2017 and further amended with Notification No. 31/2017 – Central Tax (Rate), dt. 13-10-2017 and therefore, the applicable rate of GST is 12%.

- 4.15 We have already discussed in foregoing paras (para 4.4 to 4.7) that the supply being undertaken or proposed to be undertaken by the applicant would qualify to be a supply of 'composite supply' in terms of definition under Section 2(119) of the Central Goods and Services Tax Act, 2017, where the principal supply is ' supply of goods' not 'supply of service'. Therefore, question of the applicability of concessional rate of tax in terms of Notification No. 11/2017-Central Tax (Rate), dated 28-6-2017 and as amended does not arise. The GST will have to be paid on the goods at the appropriate rate after classification under the appropriate heading.
- 4.16 The applicant's next question is 'what shall be the time for raising GST Invoices for Capital Subsidy and Annuity Fee (consisting of 10% of Project Capital Expenditure and O&M Fee) payable in 7 years?'. In this regard, the applicant submitted that as per Section 13 of the CGST Act, time of supply of Services is the earlier of the following dates, namely the date of issue of invoice by the supplier, if the invoices are issued within the period prescribed under sub-section (1) of section 31, or the date of receiving of payment whichever is earlier. According to their understanding, the timing for raising of GST Invoice shall be at the time of sending Bill for claiming the payment to the Authority/ ULB.
- 4.17 Since in the subject case there is a 'composite supply' where the predominant supply/principal supply is 'supply of goods', we are of the opinion that the applicant should raise invoice as per the provisions of Section 31 of the CGST Act, 2017.

5.0

RULING

Question No.1 Whether Capital Subsidy (90 per cent of Project Capital Expenditure) received by the Applicant as per SIOM Agreement and Escrow Agreement from Odisha Government / ULBs for the Green Field Public Street Lighting System in the State of Odisha is not liable to GST and if liable to GST, then at what rate of GST?

Answer:- Capital Subsidy (90 per cent of Project Capital Expenditure) received by the Applicant is liable to GST. The GST will have to be paid on the goods at the appropriate rate after classification under the appropriate heading.

24 N
20
V P

Question No.2 What shall be the GST rate for the balance 10% of the Project Capital Expenditure and O&M Fees received as Annuity Fee over the period of 7 years by the Applicant as per SIOM Agreement considering the Sl. No. 3(vi) of the notification No. 11/2017 Central Tax (Rate), dt. 28-06-2017 as amended by Notification No. 31/2017 Central Tax (Rate), dt. 13-10-2017 and corresponding notifications of Odisha State Tax Rate as amended.

Answer:- The supply being undertaken or proposed to be undertaken by the applicant would qualify to be a supply of 'composite supply' in terms of definition under Section 2(119) of the Central Goods and Services Tax Act, 2017, where the principal supply is 'supply of goods' not 'supply of service'. Therefore, question of the applicability of concessional rate of tax in terms of Notification No. 11/2017-Central Tax (Rate), dated 28-6-2017 and as amended does not arise. The GST will have to be paid on the goods at the appropriate rate after classification under the appropriate heading.

Question No.3 What shall be the time for raising GST Invoices for Capital Subsidy and Annuity Fee (consisting of 10% of Project Capital Expenditure and O&M Fee) payable in 7 years?

Answer:- Since in the subject case there is a 'composite supply' where the predominant supply/principal supply is 'supply of goods', we are of the opinion that the applicant should raise invoice as per the provisions of Section 31 of the CGST Act, 2017.

Question No.4 Whether the rate of tax on the supplies by the sub-contractor to the Applicant shall be 12 % GST (6% CGST and 6 % SGST) in terms of serial no. 3 (ix) of Notification No.11/2017-Central Tax(Rate) dated 28.6.2017 as amended by Notification No.1/2018-Central Tax (Rate) dated 25.01.2018/ Odisha State Tax (Rate) dated 28.06.2017 as amended.

Answer:-

Notification No.11/2017-Central Tax(Rate) dated 28.6.2017 as amended is applicable for 'supply of service'. In the instant case, the supply being undertaken or proposed to be undertaken by the applicant would qualify to be a supply of 'composite supply' in terms of definition under Section 2(119) of the Central Goods and Services Tax Act, 2017, where the principal supply is 'supply of goods' not 'supply of service'. Therefore, the said notification is not applicable to the applicant.

- 6.0 This ruling is valid subject to the provisions under Section 103(2) until and unless declared void under Section 104(1) of the GST Act.
- 7.0 The applicant or jurisdictional officer, if aggrieved by the ruling given above, may appeal to the Odisha State Appellate Authority for advance ruling under Section 100 of the CGST/OGST Act, 2017 within 30 days from the date of receipt of the advance ruling.
